INDEX TO VOLUME 50

Adaptation 97–9
Admixture, methods for measuring, 343–60
Aging effects on differential leukocyte count of females 301–11
Altitude, 85–7: body proportions of highland and lowland Peruvian Quechua children and, 57–68; lung function and, 489–513
Annenkov, G. A., Genetic characteristics of blood serum of the Karamojo of Uganda 229–34
Arm volume 103–13
Ashcroft, M. T., Skeletal development of Jamaican children with homozygous sickle cell disease 115–9
Azevêdo, Eliane S., Family names and ABO blood group frequencies in a mixed population of Bahia, Brazil 361–7, Development of resistance to schistosomiasis in Brazilian Negroes 41–9

Bakker, H. K., and R. S. Struikenkamp. Erratum. Follows p. 102.
Bearn. A. G., Blood groups, serum proteins and enzymes of the Ainu of Hokkaido 425–50
Berenson, Gerald S., Densitometry and anthropometry of Black and White children 261–80
Bharadwaj, H., Estimation of body fat and lean body mass from anthropometric measurements in young Indian women, 515–27, Relationship of extremity volume and body density in young Indian women 103–13
Bina, José Carlos, Greater resistance to development of severe schistosomiasis in Brazilian Negroes 41–9
Birth length and adult stature 69–72
Births, season of, in Papua New Guinea 313–23
Blood groups: ABO, in persons of different surnames 361–7; of Ainu 425–50; of Indians of Bolivia and Paraguay 121–36

Blood serum characters of Karamojo of Uganda 229–34
Body density in young Indian girl 103–13
Body proportions of highland and lowland Peruvian Quechua children 57–68
Body volume, estimation of, 151–8
Bogin, Barry A., Growth of height and weight of urban Guatemalan primary school children of low and high socioeconomic class 477–87
Book reviews
Baker, P., Human population problems in the biosphere: some research strategies and designs 395–6
Baker, Paul T. and Michael A. Little, Man in the Andes: A multidisciplinary study of high-altitude Quechua 85–7
Brues, A., People and races 396–8
Conroy, Glenn C., Primate postcranial remains from the Oligocene of Egypt 398–400
Dawkins, Richard, The selfish gene 87–95
Day, Michael H., Guide to fossil man 572–6
Dudley, Hugh, The presentation of original work in medicine and biology 394–5
Eccles, John C., Understanding of the brain 388–90
Eveleth, P. B. and J. M. Tanner, Worldwide variation in human growth 385–6
Fix, Alan G., Demography of the Semai Senoi 461–2
Gould, Stephen Jay, Ontogeny and phylogeny 400–3
Greene, Lawrence S., Malnutrition, behavior and social organization 403–5
Kaplan, B. A., Anthropological studies of human fertility 83–5
Logan, M. H. and E. E. Hunt, Jr., Health and the human condition: perspectives on medical anthropology 566–8
McKusick, Victor A., Medical genetic studies of the Amish 569–71
Mourant, A. E., Ada Kopec and Kazimiera Domaniewska-Sobczak, Distribution of the human blood groups and other polymorphisms 222–4
Murray, J. D., Lectures on nonlinear-differential-equation models in biology 562–4
Nurse, G. T. and T. Jenkins, Health and the hunter-gatherer: biomedical studies on the hunting and gathering populations of Southern Africa 457–61
Pietruswesky, Michael, Prehistoric human skeletal remains from Papua New Guinea and the Marquesas 225–6
Reynolds, Vernon, The biology of human action 217–9
Sahlins, Marshall, The use and abuse of biology 87–95
Scott, J. S. and W. R. Jones, Immunology of human reproduction 390–2
Sheppard and Eisenbud, Biological effects of electric and magnetic fields of extremely low frequency 565–6
Spiess, Elliot B., Genes in populations 392–3
Steinbock, R. Ted, Paleopathological diagnosis and interpretation 95–7
Swindler, Daris R., Dentitions of living primates 220–1
van der Linden, Frans P. G. M., and Herman S. Duterloo, Development of the human dentition 219–20
Watts, Elizabeth S., Francis E. Johnston and Gabriel W. Lasker, Biosocial interrelations in population adaptation 97–9

Book reviews
Wittrock, M. C., The human brain 386–8
Book notices 101–2, 227–8, 407, 577–8
Bressac, F., Correlations between birth length and adult stature 69–72
Byard, Pamela J., Principal components in the analysis of cross-sectional growth data 461–75

Consanguinity avoidance and genotype frequencies 281–99
Carlson, David S., Book notices 101–2, 227–8, 407, 577–8
Chern, M., Seasonal behavior of human menstrual cycles 15–31
Cleve, H., Blood groups, serum proteins and enzymes of the Ainu of Hokkaido 425–50

Dennis, R. L. H., Digital and palmar dermatoglyphics of Brazilian Mato Grosso Indians 325–42
Densitometry 529–40, and anthropometry of Black and White children 261–80, of Indian women 515–27
Dermatoglyphic fields revealed by multivariate analysis 541–56
Dermatoglyphic variations in Uttar Pradesh 251–60
Dermatoglyphics, racial differences in dermal ridges breadth 33–40
Dermatoglyphics of Brazilian Indians 325–42
Desai, P., Skeletal development of Jamaican children with homozygous sickle cell disease 115–9
Dyke, Bennett, Consanguinity avoidance and genotype frequencies in human populations 281–99

El-Nofely, Aly A., Anthropometric study of growth of Egyptian Nubian children 183–208
Ewing, John A., Hirsutism, race and testosterone levels: comparison of East Asians and Euroamericans 209–15

Fat, body: in Black and White children 261–80; in Indian women 515–27; predicted from anthropometrics 151–8
Fecundity and post-partum sterility, heritability of, 1–14
Fertility 83–5, and leprosy 451–60
Filippov, I. K., Some genetic characteristics of blood serum of the Karamojo 229–34
Finger prints in: Brazil 325–42; Uttar Pradesh 251–60
Finger print ridge counts 541–56
Fingers, size of bones of, in Japanese males 51–6
Franco, M. H. L. P., Unusual blood genetic characteristics among the Ayoreo Indians of Bolivia and Paraguay 121–36
Freedson, Patty, Anthropometric model of total body volume for males of different sizes 529–40
Frerichs, Ralph R., Densitometry and anthropometry of Black and White children 261–80
Frisancho, A. Roberto, Body proportions of highland and lowland Peruvian Quechua children 57–68

Gatewood, L., Seasonal behavior of human menstrual cycles 15–31
Gayle, Richard, Familial relationships in maximal oxygen uptake 241–9
Gershowitz, H., Unusual blood genetic characteristics among the Ayoreo Indians of Bolivia and Paraguay 121–36
Giblett, E. R., Blood groups, serum proteins and enzymes of the Ainu of Hokkaido 425–50
Growth and social class in Guatemala 477–87
Growth curves, intersection of male with female 411–23
Growth, principal components in analysis of, 461–75
Growth of: Egyptian Nubian children 183–208; Dutch children 369–84
Guinto, Ricardo S., Leprosy and fertility 451–60

Hair and testosterone levels in East Asians and Euroamericans 209–15
Hall, Roberta L., Sexual dimorphism for size in 19th century Northwest Coast populations 159–71
Hand and wrist ossification centers, number of, in siblings in a malnourished population 73–81
Harsha, David W., Densitometry and anthropometry of Black and White children 261–80
Harvey, R. G., Blood groups, serum proteins and enzymes of the Ainu of Hokkaido 425–50
Heritability of fecundity and post-partum sterility 1–14
Hickman, L., Seasonal behavior of human menstrual cycles 15–31
